

# Application flows

## Cardholder perspective

The cardholder receives an email containing a "Activate Card" link.

The cardholder sets a password.

The cardholder sets up a PIN to access card details.

The cardholder receives an SMS on the phone number provided by the admin.

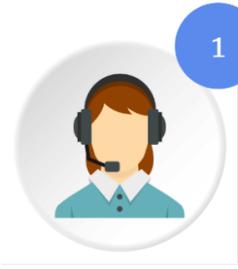

Once the card is generated, the cardholder can add it to their Apple/Google wallet or use it for online payments

## On the screens

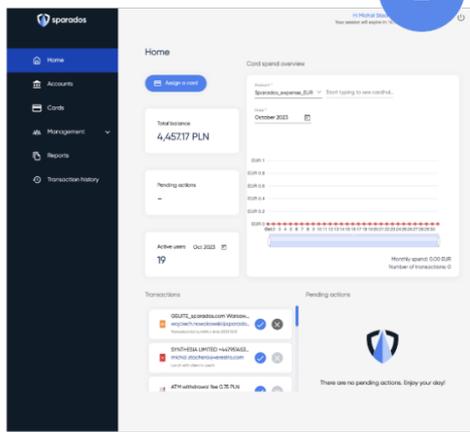

The screenshots illustrate the following steps:

- Step 1:** Welcome screen with an "Activate your card" button and an activation code (4567).
- Step 2:** "Complete your registration" form with fields for Name, Surname, Email, Phone number, and Password.
- Step 3:** "Set up PIN" screen with fields for "Enter PIN" and "Repeat PIN".
- Step 4:** "Enter the SMS code" screen with a numeric keypad and a "Resend SMS" link.
- Step 5:** Card details screen showing a business card with a budget of €1,000.00, "Your limits" section, and "Transaction history".

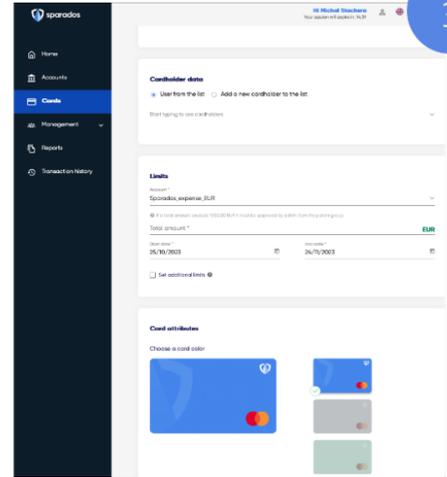

## Administrator perspective

1

2

3
